

# Evidor.ai

The AI compliance plane for *regulated firms*.

WHAT WE ARE

# The control plane between your firm and *the model.*

Evidor classifies every prompt, redacts personal data, routes the request under your policy, and writes a tamper-evident record. Self-hosted, jurisdiction-aware, evidence-first.

01 · Posture

## Proof, *not promises.*

Every prompt produces a hash-chained audit record your compliance team can hand to a regulator. Adjectives belong on slide decks; evidence belongs in production.

02 · Boundary

## Self-hosted, *not shared.*

The control plane runs inside your VPC. Your prompts, your redactions, and your logs never leave your perimeter — not to us, not to anyone else.

03 · Stance

## Architecture, *not attestation.*

We ship the control plane. We do not sell SOC 2 readiness theatre, behavioural anomaly scoring, or a framework you have to integrate over six quarters.

IDENTITY

One word, one weight, *sentence case*.

PRIMARY · ON CREAM

Evidor.ai

INVERSE · ON FOREST

Evidor.ai

PRINT · BRG ON WHITE

Evidor.ai

|              |                                                                                                                                                                                                                      |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CASING       | Always <b>sentence case</b> . Capital E, lowercase remainder. Never lowercase, never all caps, never camelcase. The casing places us in the professional-services letterhead universe, not the YC / Linear universe. |
| WEIGHT       | Single weight (Inter 500). The .ai trails at Inter 400 / ~60% opacity. Do not bold either segment. Never italicise the wordmark.                                                                                     |
| COLOUR       | BRG #004225 on cream and white. Cream #FAFAF7 on forest. Single-colour only — never gradient, never amber, never two-tone beyond the .ai opacity step.                                                               |
| CLEAR SPACE  | Minimum clear space on all sides equals the cap height of E. Honour it especially against rules, image edges, and Nexusdesk co-branding.                                                                             |
| MINIMUM SIZE | Digital: 20 px cap height. Print: 8 mm wordmark width. Below this, set in body type — do not redraw.                                                                                                                 |

OUTLINE / STROKE

Evidor.ai

PALETTE

# A single forest, warmed by *cream and burnt amber*.

Forest depth · Primary  
#0E3B2A

Wordmark on dark, primary buttons, charts, links, accent rules. The voice of the brand in colour form.

British Racing Green · Reserved  
#004225

Wordmark on cream, print covers, letterhead, regulator-facing documents. Single-colour print default.

Burnt amber · Highest-intent  
#C76E3A

*Evidor primary CTA*. One per page: "Request a deployment", "Book a call". Reserved for the single highest-intent action.

Warm cream · Callout  
#F4E5C2

*Evidor-only*. Pull-quote field, how-it-works panel, italic-headline callouts. Nexusdesk does not use this.

Cream · Background  
#FAFAF7

Page background. Never pure white on screen.

Deep slate · Text  
#1A1F2E

Body copy, headlines, primary UI text.

Cream card · Surface  
#F5F2EB

Cards, neutral panels, secondary surfaces.

Warm grey · Divider  
#E5E2D8

Hairlines, table rules, input borders.

THE EVIDOR DIFFERENTIATOR

Warm cream *earns its place* on pages where the buyer needs to slow down.

Use #F4E5C2 as the field behind a pull-quote, a how-it-works step, or an italic emphasis-headline. Once per page, never as a full hero background. It is the one colour move that distinguishes Evidor from Nexusdesk — overuse and the brand reads warm-and-friendly instead of warm-and-considered.

TYPE

Inter, set with *italic for emphasis.*

|        |                   |                                                                     |
|--------|-------------------|---------------------------------------------------------------------|
| D / 01 | 96 / 0.98 / -3.5% | Display                                                             |
| H / 02 | 64 / 1.02 / -2.8% | Section title                                                       |
| H / 03 | 36 / 1.10 / -1.8% | Subsection                                                          |
| B / 01 | 19 / 1.55 / 0     | Body. The default reading size for paragraphs across web and print. |
| L / 01 | 14 / 1.2 / 14%    | EYEBROW LABEL                                                       |

ITALIC FOR EMPHASIS · ON WARM CREAM

Your team is using AI. You cannot prove what it *did with your data.*

Italic carries warmer emphasis at Evidor than at Nexusdesk — the buyer-pain register. One italic phrase per headline. Pair with the cream callout sparingly.

“

DISPLAY & BODY

Inter — 300 · 400 · 500 · 600

**One family**, no serif companion. Display weight 500 with tight tracking. Body weight 400 with default tracking. Italics 400 / 500.

NUMERALS

Tabular · Lining

Use tabular numerals for tables, hex codes, IDs, audit hashes, and regulatory references. Lining figures everywhere else.

DON'T

No serif headlines · No monospace badges

Never set headlines in a serif. Never use monospace for badges, status pills, or code-comment flourishes inside marketing surfaces.

Aa Gg Rr — *italic for emphasis*

Every prompt that crosses the AI boundary, accounted for.

AMBER: THE SINGLE HIGHEST-INTENT ACTION PER PAGE · DEFAULT EVIDOR CTA

Book a call

Download brief

See policies

COMPACT SIZING · INLINE PLACEMENTS, TABLE ROWS, NAV

WARM CREAM CALLOUT · EVIDOR SIGNATURE

The one distinctive Evidor surface. Pull-quotes, how-it-works panels, italic-emphasis lines. Once per page.

HOW IT WORKS · STEP 02

Personal data is *redacted at the proxy* before any prompt reaches the model provider.

Reversible, policy-bound, logged at the boundary.

CARD · FLAT, SINGLE DIVIDER LINE

No drop shadows. No double borders. Hairline divider for internal structure.

CAPABILITY · AUDIT

Hash-chained *audit record*.

Every prompt, classification, redaction, and routing decision is committed to a tamper-evident log. Export to your SIEM or hand a row to your regulator.

SHA-256 · per-tenant chain

See a sample record →

FORM INPUT · SQUARE, HAIRLINE BORDER

4 px corner radius — pill geometry is reserved for actions. Focus uses forest, never amber.

WORK EMAIL

managing.partner@firm.com.sg

We respond within one business day, Singapore time.

NAVIGATION · HEADER LOCKUP

Wordmark left, links right, amber CTA far right. Active state is forest weight 500.

IMAGERY

Abstract organic. *Water, sand, soft horizon.*

USE

- Abstract organic — water ripples, raked sand, soft horizon, slow motion
- Single-tone warm palettes that meet our cream and amber on their own terms
- Tight crops, long aspect ratios, generous negative space
- Imagery should suggest deliberateness and slow time — not motion, urgency, or alarm

NEVER

- Stock photography of people in suits, smiling teams, or handshakes
- Neural-network / brain / circuit-board AI illustration
- Leaves, hands cupping plants, anything eco-coded (we use green — dodge the association)
- Multi-colour gradients, glow effects, lens flare, dark-mode hero

SISTER BRAND RELATIONSHIP

# Same DNA. *Different temperature.*

WARMER · THE PRODUCT

## Evidor.ai

Buyers · risk & compliance leads · managing partners · CFOs · GPs. Trust-first. Buyer-pain language.

EVIDOR.AI / PRODUCT

Every prompt that crosses your AI boundary, *accounted for.*

REFERENCE

# A working document, *not a manifesto.*

This guide governs the Evidor.ai product brand — the surface the buyer meets at evidor.ai and in the deployment conversation. The Nexusdesk.io company brand is a sister document; both share DNA and diverge only in temperature.

When in doubt, defer to restraint: fewer colours, smaller type, more whitespace. *Warm cream earns its place once per page.* Amber earns its place once per page. Anything else is a defect.
